# New Union State Bank Website Launched

In November of 2020, Union State Bank launched a new website featuring the “Rich in Community” logo and colors at [www.mybankusb.com](http://www.mybankusb.com)

The new site is designed to provide customers with simplicity and efficiency across bank solutions and the mobile application. Information can be easily added, including promotions and community events where Union State Bank participates.

Customer feedback has been positive and additional information areas and updates are planned for the near future. This is a great way to remind customers of the features offered by Union State Bank online and mobile banking platforms.

Please send ideas and suggestions for website content to Braden McGinnis at [bmcginnis@mybankusb.com](mailto:bmcginnis@mybankusb.com)
